ABOUT HOS

Every year, the Harvard Organ Society presents one of Harvard's spookiest traditions: the annual Halloween Recital. Though Memorial Church's sanctuary may be closed this October, nothing could stop some HOS members from recording their favorite Halloween pieces for a virtual recital. This year's recital showcases music by masters such as Bach and Boëllmann, performed on instruments all across the country.

HOS consists of undergraduate students at Harvard College, as well as graduate students from many of Harvard's graduate and professional schools. Although most members actively study organ as an extracurricular interest, HOS welcomes any and all members of the Harvard community, regardless of organ skill or knowledge. If you're interested in learning more about HOS and keeping up to date with organ events at Harvard, be sure to check out our Facebook page or website. We can't wait to see you again when we're back on campus!

*This recital is presented in association with
The Memorial Church of Harvard University.*
